From two leading experts in the field, you can learn to anticipate, identify and reduce the risks involved in foreign investment. This study deals with fundamental analysis of international law, and provides detailed references, appendices and contact information for national and international organizations referenced.

Written to aid the practitioner in obtaining practical guidance as to the available techniques, remedies, and institutions that may reduce the risk ahead of time, this text provides:

- A review and explanation of international law regarding political risk
- Methods for the investor to reduce exposure to political risk through choice of business structure, contract negotiation, and risk insurance
- An explanation of the arbitral and judicial options open to the investor following a taking of the investor's property.
